

The Enchanted Fireside *Annual Gas/LP Preventative Maintenance Service* is the most thorough service you can get to keep your stove running at its peak performance and keep you warm and happy throughout the next heating season.

During the service, our technicians will:

- 🔥 **Respect your home.** We use blankets to protect your hearth area while we clean your stove or insert.
- 🔥 Thoroughly inspect for signs of wear: gaskets, seals, and electrical connections. We stock manufacturer-specific replacement parts on our trucks, guaranteeing you they will perform as required and usually saving you a second service call if any replacements are needed.
- 🔥 Did you know? Burning gas or propane creates an acidic sediment that that must be cleaned off periodically from the metal components in your stove or firebox. During our service, we clean all metal components, including the pilot assembly and burner, in order to prevent corrosion from this sediment.
- 🔥 Scrub and air-jet clean the convection (room air) fan.
- 🔥 Pressure and electrical test valve and pilot assembly.
- 🔥 Refresh the ember bed.
- 🔥 Adjust air shutters for optimal flame picture.
- 🔥 Clean the glass.
- 🔥 Inspect and clear the vent system.
- 🔥 Clean all exterior surfaces and hearth area.
- 🔥 Fully test the newly cleaned system.

What our customers are saying:

"I thought my gas insert looked great, but after the Enchanted Fireside service, the flame looked incredible - the fire was much more yellow, with bigger flames and a beautiful glowing ember bed. I couldn't believe the difference." J.D., West Boylston

While we are there, we will gladly answer your questions about the operation and maintenance of your stove.
